From The Pneumatic Division Business Units

To: Watts FluidAir Distributors  
Subject: Parker/Watts 14 Series FRL

Date: December 17, 2004

## **ANNOUNCING...**

Watts FluidAir is pleased to announce the release of the new 14 Series complete miniature FRL line. These new FRL's offer a wide variety of features and benefits to your customers' applications at an attractive price. Some of these include:

- Complete Filter, Coalescer, Regulator, Lubricator, and Piggyback F/R units available
- Combination units available
- Multiple bowl, drain, spring options available
- High flow in a small package
- Piston operated regulator for durability and long life
- Die cast zinc construction

This Parker branded 14 Series is now being offered through our Watts FluidAir distributor network. This line offers a miniature, cost effective die cast filter / regulator as well as two and three piece combinations to assist in competitive price situations.

Enclosed you will find new Catalog 0714W (available from Catalog Services 440-205-7799) and Price List 0714W, effective November 1, 2004.

This new FRL offering adds more to your air preparation arsenal to help attack competition. Good selling!

Sincerely,

A handwritten signature in cursive script that reads "Lee Scott".

Lee Scott
